# Quality Ringneck Pheasant Hunting

Martz's Gap View Hunting Preserve has over 1,300 acres of prime hunting ground ranging from light brush, weedlots and cornfields, to open fields. Our terrain is gently rolling with all types of

cover and shooting situations. The more open hunting conditions are ideal for older hunters, those with health problems, or youngsters being introduced into hunting who still need supervision. Heavier cover is available for those sportsmen who really wish to test and challenge themselves and their dogs. Martz's Gap View has an ideal, all round hunting environment that has been professionally arranged.

At our family owned facility, we cater to the same hunters year after year. We have employees who enjoy making our customers feel at home so they want to return again and again.

Come and be our guest. Our goal is to show you an exciting and productive hunt. One that is sporting in the best sense of the word.

"Our goal is to show you an exciting and productive hunt."
